## Product Description

---

The NMB 08025DA-12Q-BLD is an extremely high-performance 12V DC axial fan, precisely measuring 80mm x 80mm x 25mm, and manufactured by NMB Technologies Corporation. This fan is engineered for the most demanding cooling applications, where maximum airflow and static pressure are absolutely critical. It features robust ball bearings, ensuring a long and reliable operational lifespan of 70,000 hours at 40°C.

Drawing a significant 0.82A of current, this fan consumes 9.84W of power. It operates at an exceptionally high speed of 8500 RPM, delivering an impressive 90.0 CFM of airflow and generating considerable static pressure of 0.95 inches of H<sub>2</sub>O. Due to its powerful performance, it produces a noticeable noise level of 62 dBA. This model comes with 2-wire leads for power connection, focusing on direct power delivery. The NMB 08025DA-12Q-BLD is an excellent choice for cooling high-density server racks, powerful networking equipment, industrial control systems, and other critical electronics that require extreme cooling performance and unwavering reliability to maintain optimal operating temperatures.

08025DA-12Q-BLD new original genuine NMB 12V 8CM energy storage waterproof cooling fan

Model: 08025DA-12Q-BLD

Manufacturer: NMB Technologies Corporation

Type: DC Axial Fan

Dimensions: 80mm x 80mm x 25mm

Nominal Voltage: 12V DC

Current: 0.82A

Power Consumption: 9.84W

Speed: 8500 RPM

Airflow: 90.0 CFM

Static Pressure: 0.95 In H2O

Noise Level: 62 dBA

Bearing Type: Ball Bearing

Life Expectancy: 70,000 Hours (at 40°C)

Termination: 2-wire leads

Frame Material: Plastic

Impeller Material: Plastic

Features: Auto Restart, Polarity Protection.
