Product Description

The NMB 08025VE-12P-GLD is a powerful and highly reliable 12V DC axial fan, measuring 80x80x25mm. Designed for aggressive cooling in challenging environments, this fan draws 0.68A of current to deliver high airflow and static pressure, making it exceptionally effective for heat dissipation. It features ball bearings for excellent durability and a long operational lifespan. A key feature is its waterproof capability, often rated to IP68, making it suitable for outdoor, humid, or dusty conditions. Its 3-wire termination includes a pulse sensor (tachometer) for real-time RPM monitoring, enabling precise system control. This fan is an ideal choice for industrial equipment, outdoor enclosures, servers, automotive applications, and other systems where robust, high-performance, and environmentally resilient thermal management is critical.

NMB brand new original 08025VE-12N-GLD 12V 0.68A 8CM waterproof fan 3-wire cooling fan

Model: 08025VE-12P-GLD

Manufacturer: NMB Technologies Corporation

Type: DC Axial Fan

Dimensions: 80mm x 80mm x 25mm

Nominal Voltage: 12V DC

Current: 0.68A

Power Consumption: 8.16W

Bearing Type: Ball Bearing

Life Expectancy: 40,000 hours at 60°C

Termination: 3-wire leads

Frame Material: Plastic

Blade Material: Plastic

Features: Waterproof (often IP68 rated), Pulse Sensor (Tachometer), Auto-Restart, Polarity

Protection
