## Product Description

---

The NMB 08038RA-12Q-FL-01 is a powerful DC Axial Cooling Fan from NMB Technologies, designed for robust thermal management. Operating on 12V DC power, it draws a significant 1.6A of current, resulting in a 19.2W power consumption. Measuring 80mm x 80mm x 38mm, this fan is built for demanding cooling applications. Equipped with 2-wire leads and durable ball bearings, the fan boasts a life expectancy of 40,000 hours at 60°C. It is designed to operate reliably within a temperature range of -10°C to 70°C and includes auto restart and polarity protection features, ensuring dependable operation. Please note that specific performance metrics such as speed, airflow, static pressure, and noise level are not definitively available for a 1.6A variant of this precise model number and may differ from other versions.
