## Product Description

---

The NMB-MAT 1404KL-01W-B50 is a compact and powerful 5V DC axial fan measuring 35x35x10mm. Designed with double ball bearings, it offers excellent durability and a long operational lifespan of 40,000 hours. This fan delivers a significant 5.6 CFM of airflow at a high speed of 6000 RPM, making it highly effective for cooling components in extremely space-constrained electronic devices. With a noise level of 27 dBA, it provides robust cooling performance while maintaining a relatively low acoustic profile, ideal for small embedded systems, networking equipment, and other applications where both compactness and efficient heat dissipation are crucial.
