Product Description

The NMB-MAT 1406KL-01W-S10-UA1 is a compact and efficient 5V DC axial fan measuring 35x35x15mm. It features double ball bearings, ensuring excellent durability and a reliable, long operational lifespan. With a very low current draw of 0.06A, this fan is designed for low power consumption applications where space is extremely limited. Its small size and low power characteristics make it an ideal cooling solution for miniature electronic devices, embedded systems, small network devices, and other compact equipment where quiet and stable heat dissipation is crucial.
