Product Description

The NMB-MAT 2415FB-D4W-B96 is a robust DC Axial Cooling Fan from NMB Technologies, designed for high-performance cooling applications. Operating on 12V DC power, it draws 2.0A of current, resulting in a 24W power consumption. With its unique 60mm x 60mm x 56mm dimensions, this fan is built to deliver significant airflow and static pressure. Equipped with a 4-wire connector, it typically allows for advanced control functionalities. The fan incorporates dual ball bearings for enhanced durability and reliable long-term operation, making it suitable for demanding environments such as server cooling, enterprise storage, and various industrial machinery where consistent and powerful heat dissipation is essential.
