Product Description

New Bedel 250FZY8-D 380V 100W All-metal double ball axial flow fan industrial fan

Model Number: 250FZY8-D

Fan Type: AC Axial Flow Fan

Dimensions L x H x W: 410 mm x 390 mm x 102 mm. Some sources may list it closer to 250mm diameter, but listings for 250FZY8-D specifically mention these larger dimensions.

Rated Voltage: 380 VAC

Frequency: 50 Hz

Phase: Single-phase

Rated Current: 0.35 A

Input Power: 100 W

Wiring: 2-Wire

Bearing Type: Ball Bearing

Rotational Speed RPM: 2500 - 2600 RPM

Maximum Airflow: 30 m³/min

Noise Level: 72 - 79 dB

Frame Material: Metal

Impeller Blade Material: Metal or ABS flame-retardant plastic

Protection Degree: IP54

Capacitor: 1.5 µF/630V

Operating Temperature Range: -10°C to +65°C

The 250FZY8-D is a powerful AC axial fan designed for heavy-duty industrial cooling. Operating on 380 VAC single-phase power at 50Hz, it consumes 100W with a 0.35A current draw. This fan features robust ball bearings and delivers a significant airflow of 30 m³/min at 2500 - 2600 RPM, with a high noise level in the range of 72 - 79 dB. Constructed with a metal frame and durable

impeller, it holds an IP54 protection rating, making it suitable for demanding environments like industrial inverters, welding machines, and large electrical cabinets where efficient and reliable heat dissipation is crucial.
