Product Description

The NMB 3110RL-04W-B86 is a high-performance 12V DC axial fan, precisely measuring 80mm x 80mm x 25mm, manufactured by NMB Technologies Corporation. This fan is widely recognized for its robust cooling capabilities, especially in CPU and case cooling applications. It features durable double ball bearings, which contribute to an extended operational lifespan of 50,000 hours. Drawing a current of 0.65A, it consumes 7.8W of power. This fan operates at a speed of 3800 RPM, delivering a substantial 50.14 CFM of airflow while maintaining a noise level of 39 dBA. Equipped with 4-wire termination, it offers advanced functionalities including PWM temperature control for variable speed operation and a tachometer output for real-time RPM monitoring. The NMB 3110RL-04W-B86 is an excellent choice for demanding thermal management tasks in desktop computers, servers, and other electronic devices where efficient cooling, precise speed control, and long-term reliability are paramount.

NMB brand new original authentic 3110RL-04W-B86 12V 0.65A 8025 4-wire inverter fan

Model: 3110RL-04W-B86

Manufacturer: NMB Technologies Corporation

Type: DC Axial Fan

Dimensions: 80mm x 80mm x 25mm

Nominal Voltage: 12V DC

Current: 0.65A

Power Consumption: 7.8W

Speed: 3800 RPM

Airflow: 50.14 CFM

Noise Level: 39 dBA

Bearing Type: Double Ball Bearing

Life Expectancy: 50,000 Hours

Termination: 4-wire

Frame Material: Plastic

Impeller Material: Plastic

Features: PWM Temperature Control, Tachometer Function, Double Ball Bearing, Auto Restart, Polarity Protection.
