## Product Description

---

The ebmpapst 4184NXH is a high-performance 120x120x38mm (120mm) DC axial fan engineered for robust thermal management in demanding industrial and electronic applications. Operating on a 24V DC nominal voltage with a wide operating voltage range of 12V to 28V DC, this fan delivers substantial airflow and high static pressure, optimizing heat dissipation within constrained or high-impedance environments. Its construction features a die-cast aluminum housing and a glass-fiber reinforced PA plastic impeller, ensuring structural integrity and durability. Integrated ball bearings provide extended operational lifespan. Furthermore, the fan incorporates essential protective functions including reverse polarity protection and locked rotor protection, enhancing system reliability. Connectivity is via 2-wire terminals, facilitating direct power integration.

Model:4184NXH

Size:120×120×38

Voltage:24V

Current: 460mA

Power:11W

Air volume: 237m/h

Speed: 4400RPM

Noise:57dBA

Lifespan:50000h

Weight:2KG

Bearing structure: ball bearing

Temperature range:-30°C to +70°C

Frame leaf:glass fiber reinforced plastic

Germany imported ebmpapst fan 4184NXH 12038 24V 11W high temperature resistant cooling fan
