## Product Description

---

The Sanyo Denki 9GA0912P4G001 is a high-performance 92x92x25mm DC axial fan engineered for efficient thermal management in electronic systems. Operating at 12V DC, this 4-wire fan is capable of precise speed control via PWM (Pulse Width Modulation) and provides tachometer output for real-time speed monitoring. It draws 0.48A, resulting in an estimated power consumption of 5.76W. Utilizing reliable ball bearings, this model ensures extended operational life and consistent performance, making it an ideal cooling solution for servers, industrial control systems, and telecommunications equipment.

9GA0912P4G001 Fan Parameters

Model Number: 9GA0912P4G001

Series: San Ace 80

Manufacturer: Sanyo Denki

Type: DC Axial Fan

Dimensions: 92mm x 92mm x 25mm

Rated Voltage: 12 VDC

Rated Current: 0.48A

Estimated Rated Power: 5.76 W

Wiring: 4-wire

Bearing Type: Ball Bearing

Frame Material: Plastic

Impeller Material: Plastic

Features: PWM Control Function, Pulse Sensor (Tachometer Output)

Application: General electronics cooling, industrial equipment, servers, applications requiring speed control and monitoring.
