Product Description

The ADDA AB0512DX200300 is a compact and quiet DC Blower Fan designed for targeted cooling in various electronic applications. Operating on 12V DC power, it draws 0.15A of current, resulting in a 1.8W power consumption. With its dimensions of 50mm x 50mm x 20mm, this fan is ideal for limited spaces. It features a 3-wire connector which typically provides a tachometer output for monitoring fan speed. Built with a HYPRO Bearing, it offers quiet operation and enhanced durability. The AB0512DX200300 is frequently utilized in projectors and similar devices where efficient, focused airflow is required for heat dissipation from specific components.

AB0512DX200300 New ADDA BenQ Projection Fan 5020 Acer MS614 Blower 200600

Manufacturer: ADDA Corporation

Model Number: AB0512DX200300

Type: DC Blower Fan

Rated Voltage: 12V DC

Rated Current: 0.15A

Rated Power: 1.8W

Dimensions: 50mm x 50mm x 20mm

Connector: 3-Wire

Bearing Type: HYPRO Bearing

Speed Measurement: Supports speed measurement function

Applications: Commonly used in projectors and other compact electronic devices.
