Product Description

The Delta AFB0648DH-AH16 is a powerful DC Axial Cooling Fan from Delta Electronics, engineered for demanding thermal management tasks. Operating on a 48V DC power supply, it draws 0.26A of current, resulting in a substantial 12.48W power consumption. Measuring 60mm x 60mm x 25mm, this fan is designed to provide robust airflow in a compact size. Its 4-wire connector typically allows for advanced functions like Pulse Width Modulation control and speed monitoring. Built with durable dual ball bearings, the AFB0648DH-AH16 offers enhanced reliability and a long operational lifespan, making it an excellent choice for server cooling, industrial equipment, or any high-density electronic system where efficient heat dissipation and durability are critical.

Manufacturer: Delta Electronics

Model Number: AFB0648DH-AH16

Type: DC Axial Cooling Fan

Rated Voltage: 48V DC

Rated Current: 0.26A

Rated Power: 12.48W

Dimensions: 60mm x 60mm x 25mm

Connector: 4-Wire

Bearing Type: Dual Ball Bearing

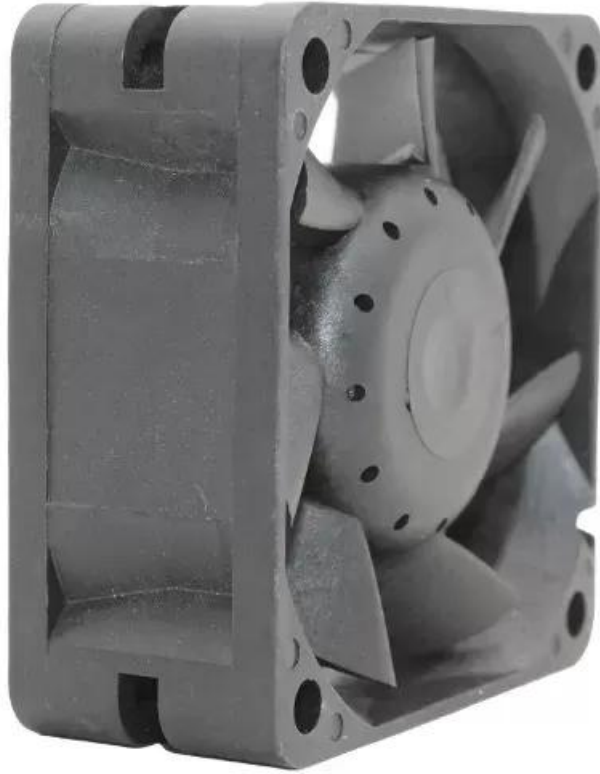

Original Delta AFB0648DH-AH16 6025 fan 48V0.26A four-wire PWM cooling fan high air volume
