Product Description

The Delta Electronics ASB0312HA-CYYB is a powerful, compact 12V DC axial fan, measuring 30mm x 30mm x 10mm, manufactured by Delta Electronics. Engineered for efficient cooling in extremely space-constrained electronic devices, it features a reliable sleeve bearing, providing an operational lifespan of 20,000 hours. Drawing 0.14A of current, it consumes 1.68W of power, operating at a rapid 13000 RPM. This fan delivers 5.5 CFM of airflow and generates 0.35 inches of H2O static pressure, all while maintaining a moderate 33.0 dBA noise level. Equipped with 2-wire leads and locked rotor protection, the Delta Electronics ASB0312HA-CYYB is an ideal choice for cooling components in miniature electronics, embedded systems, network devices, 3D printers, and other compact applications that require robust and effective thermal management in tight spaces.
