Product Description

Model:130FLJ0

Brand:Bedel

Fan Type: AC Centrifugal Blower Fan

Rated Voltage: Available in 220V AC

Frequency: 50 Hz

Rated Current: 0.27A (for 220V)

Input Power: 60 W

Rotational Speed RPM: 2600 RPM

Air Volume: 168 m³/h

Static Pressure: 200 Pa

Noise Level: ≤60 dBA

Bearing Type: High Precision Ball Bearing

Fan Shell Material: Metal stamping, surface spraying treatment

Fan Blade Material: Metal stamping, multi-wing structure

Operating Temperature Range: -20°C to 70°C

Weight: 2.1 kg

The 130FLJ0 is a versatile 60W AC centrifugal blower fan designed for efficient air circulation and cooling in industrial settings. It operates on either 220V AC or 380V AC at 50Hz, delivering an air volume of 168 m³/h and a static pressure of 200 Pa at a speed of 2600 RPM. This fan features a robust metal shell and multi-wing metal blades for durability, along with high-precision ball bearings for smooth and relatively quiet operation at ≤60 dBA. Its compact size and ability to move air against resistance make it suitable for applications like boiler blowers, small industrial cooling systems, and general ventilation where a consistent and focused airflow is needed.
