Product Description

The Delta BFB1212HH is a 120x120x32mm DC centrifugal blower fan known for its ability to deliver concentrated airflow with high static pressure. Operating at 12V, it typically provides around 32.5 CFM of airflow and a significant 1.063 inchH₂O of static pressure, making it highly effective at pushing air through restrictive environments. With durable ball bearings and features like locked rotor protection, this fan is a reliable choice for demanding thermal management in applications such as servers, industrial control systems, and compact electronic enclosures where targeted cooling is essential.

Brand:Delta

Model:BFB1212HH

Size: 120*120*32MM

Voltage: DC12V

Bearing structure: ball structure

Current: 1.1A~1.65A

Rated power: 13.2W

Speed: 2800R.P.M

Airflow: 32.49 CFM

Noise: 54 dB-A

Weight: 295g
