Product Description

The NMB BM6920-04W-B46-L02 is a compact DC Centrifugal Blower Fan from NMB Technologies, commonly found in devices like projectors and other electronics requiring focused airflow. Operating on 12V DC power, it draws 0.20A of current, resulting in a 2.4W power consumption. Its approximate dimensions are 60mm x 60mm x 20mm. Equipped with 4-wire leads, this fan typically features tachometer output for speed monitoring and PWM control for adjustable speed, utilizing durable ball bearings for reliable operation. Specific performance metrics such as speed, airflow, static pressure, and noise level are not consistently available for this precise model number.

Model Number: BM6920-04W-B46-L02

Manufacturer: NMB Technologies

Type: DC Centrifugal Blower Fan

Rated Voltage: 12V DC

Rated Current: 0.20A

Rated Power: 2.4W

Dimensions: Approximately 60mm x 60mm x 20mm

Connector: 4-Wire Leads

Bearing Type: Ball Bearing

Features: Typically includes Tachometer Output and PWM Control
