Product Description

The Delta BUB0705H-BU27 is a high-performance DC Blower Fan with measuring dimensions of approximately 75 x 75 x 30 mm. It operates on a nominal voltage of 5VDC and draws 0.50 A of current, resulting in 2.5 W of power consumption. The fan features a 4-Wire termination, indicating support for PWM (Pulse Width Modulation) control and Tachometer (speed monitoring) feedback. This fan is primarily designed for high-efficiency thermal management in digital projectors, where it provides the high static pressure required to cool sensitive components in a confined space.

BUB0705H-BU27 Fan Parameters

Model: BUB0705H-BU27

Manufacturer: Delta Electronics

Type: DC Blower Fan

Dimensions: 75 x 75 x 30 mm

Nominal Voltage: 5VDC

Current Draw: 0.50 A

Power Consumption: 2.5 W

Termination: 4 Wire Leads (PWM / Tachometer)

Application

The BUB0705H-BU27 is primarily used for cooling digital projectors due to its high static pressure capability, which is necessary to overcome the airflow resistance within the projector's dense enclosure. Other applications include compact servers and laptop cooling modules where focused, high-pressure airflow is critical.
