## Product Description

---

BUS M30M1-XC-20/130-S92K is an ultrasonic sensor manufactured by Balluff, capable of measuring distances from 200 to 2000 mm. This sensor features a robust nickel-plated brass housing and an IP67 protection rating, ensuring reliable operation in industrial environments. It provides 0-10 V or 4-20 mA analog output for easy integration into various control systems.

Product parameters:

Model: M30M1-XC-20/130-S92K

Manufacturer: Balluff

Sensor type: Ultrasonic

Housing type:  $\phi$  30 mm

Analog output: 0-10 V/4-20 mA

Connection: M12x1-male, 5-pin

Housing material: Brass, nickel-plated PBT, TPU

Sensing surface material: Polyurethane foam/epoxy resin/glass

Range: 200-2000 mm

Ambient temperature: -25-70 °C

Protection degree: IP67

Repetition accuracy:  $\pm$  0.15% of full scale

Operating voltage: 9-30 V DC
