Product Description

The Delta AFB0712VHD-F00 is a high-performance 70x70x20mm DC axial fan. Operating at a 12V rated voltage, this fan delivers approximately 40.9 CFM of airflow and 0.285 inchH2O of static pressure while spinning at 5000 RPM. Featuring durable ball bearings, a speed sensor (tachometer), and locked rotor protection, it's an excellent choice for reliable and efficient cooling in compact electronic devices, including computer CPUs, server components, and other demanding applications.
