Product Description

The ebm K3G560-PB31-79 is a high-efficiency 380V EC centrifugal fan with a 560mm impeller diameter. It has a rated power of approximately 4.25-4.67 kW and operates at speeds around 1700-1765 RPM. This fan offers superior energy efficiency and static pressure, integrating advanced control features like Modbus RTU to ensure reliable and precise airflow management in critical air conditioning and ventilation systems.

Brand new original German imported fan K3G560-PB31-79 380V precision air conditioning centrifugal fan new
