Product Description

The Delta EFB0412HD-ATQ is a compact, high-performance 12V DC axial cooling fan from Delta Electronics, Inc., measuring 40mm x 40mm x 20mm. Operating at a confirmed rated current of 0.12A (1.44W), this fan is engineered for efficient heat dissipation in confined electronic spaces. It achieves a high rotational speed of 7600 RPM, delivering 8.54 CFM of airflow and a static pressure of 0.303 inch-H2O, while maintaining a relatively low noise level of 28.5 dBA. Equipped with robust ball bearings, it ensures a long operational life of 70,000 hours at 40°C. The fan utilizes 2-wire leads for power connection and typically includes a locked rotor sensor for monitoring its operational status, making it a reliable solution for various cooling applications.
