Product Description

Manufacturer: ZIEHL-ABEGG

Model: FN050-4EK.4I.V7P1

Product Type: Axial Fan

Motor Technology: AC External Rotor Motor

Impeller Diameter: 500 mm

Number of Blades: 4 Sickle blades

Bearing Type: Ball Bearing, with long-time lubrication

Protection Class: IP54

Thermal Class: THCL155

Electrical Connection: Terminal box K62

Design: K

Airflow Direction: V Ventilating, air blows over the motor side

Weight: Approximately 13.3 - 13.8 kg slight variations between sources

Minimum Operating Temperature: -25 °C

Maximum Medium Temperature: 70 °C

Conformity: ErP 2013, CE

Parameters at 50Hz Operation 1~ 230V $\pm 10\%$:

Frequency: 50 Hz

Rated Power Input P1: 720 W or 760 W slight variations between sources

Rated Current IN: 3.20 A or 3.3 A slight variations between sources

Rated Speed nN: 1230 RPM or 1240 RPM slight variations between sources

Service Capacitor: 16 μ F / 400V

Airflow: 8470 m³/h or 8800 m³/h slight variations between sources

Noise: Approximately 73 dB(A) Sound pressure level, specific values should be taken from the official performance curve diagram

Parameters at 60Hz Operation 1~ 230V $\pm 10\%$:

Frequency: 60 Hz

Rated Power Input P1: 1.05 kW 1050 W

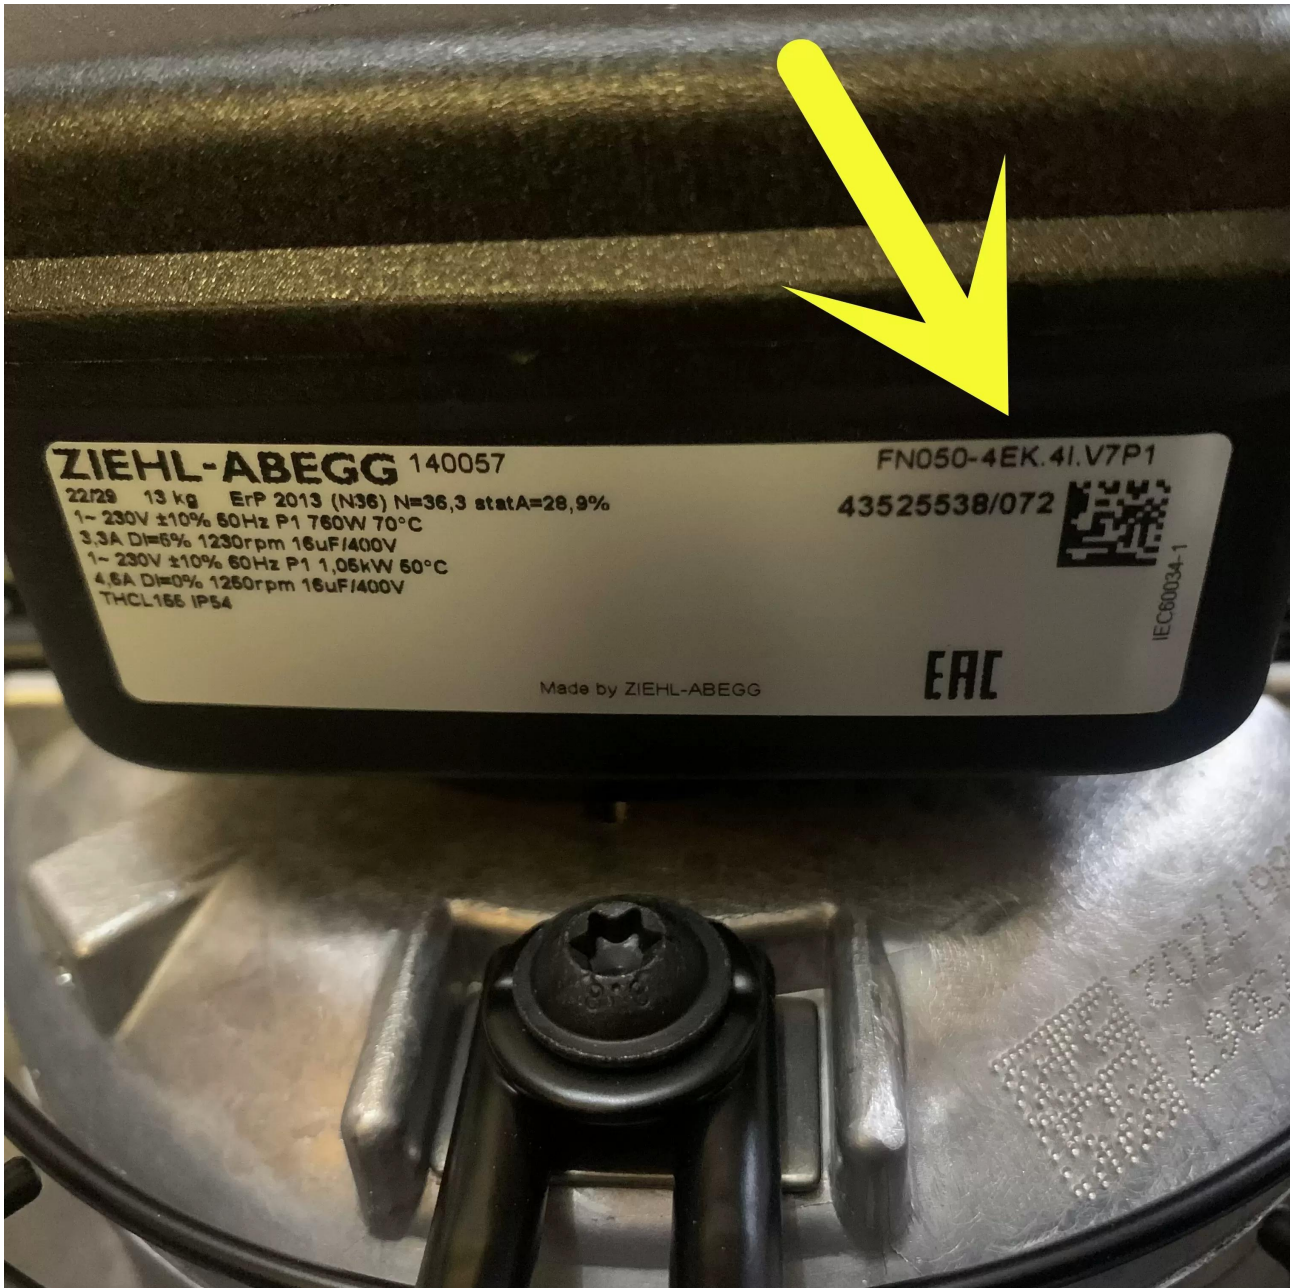

Rated Current IN: 4.6 A

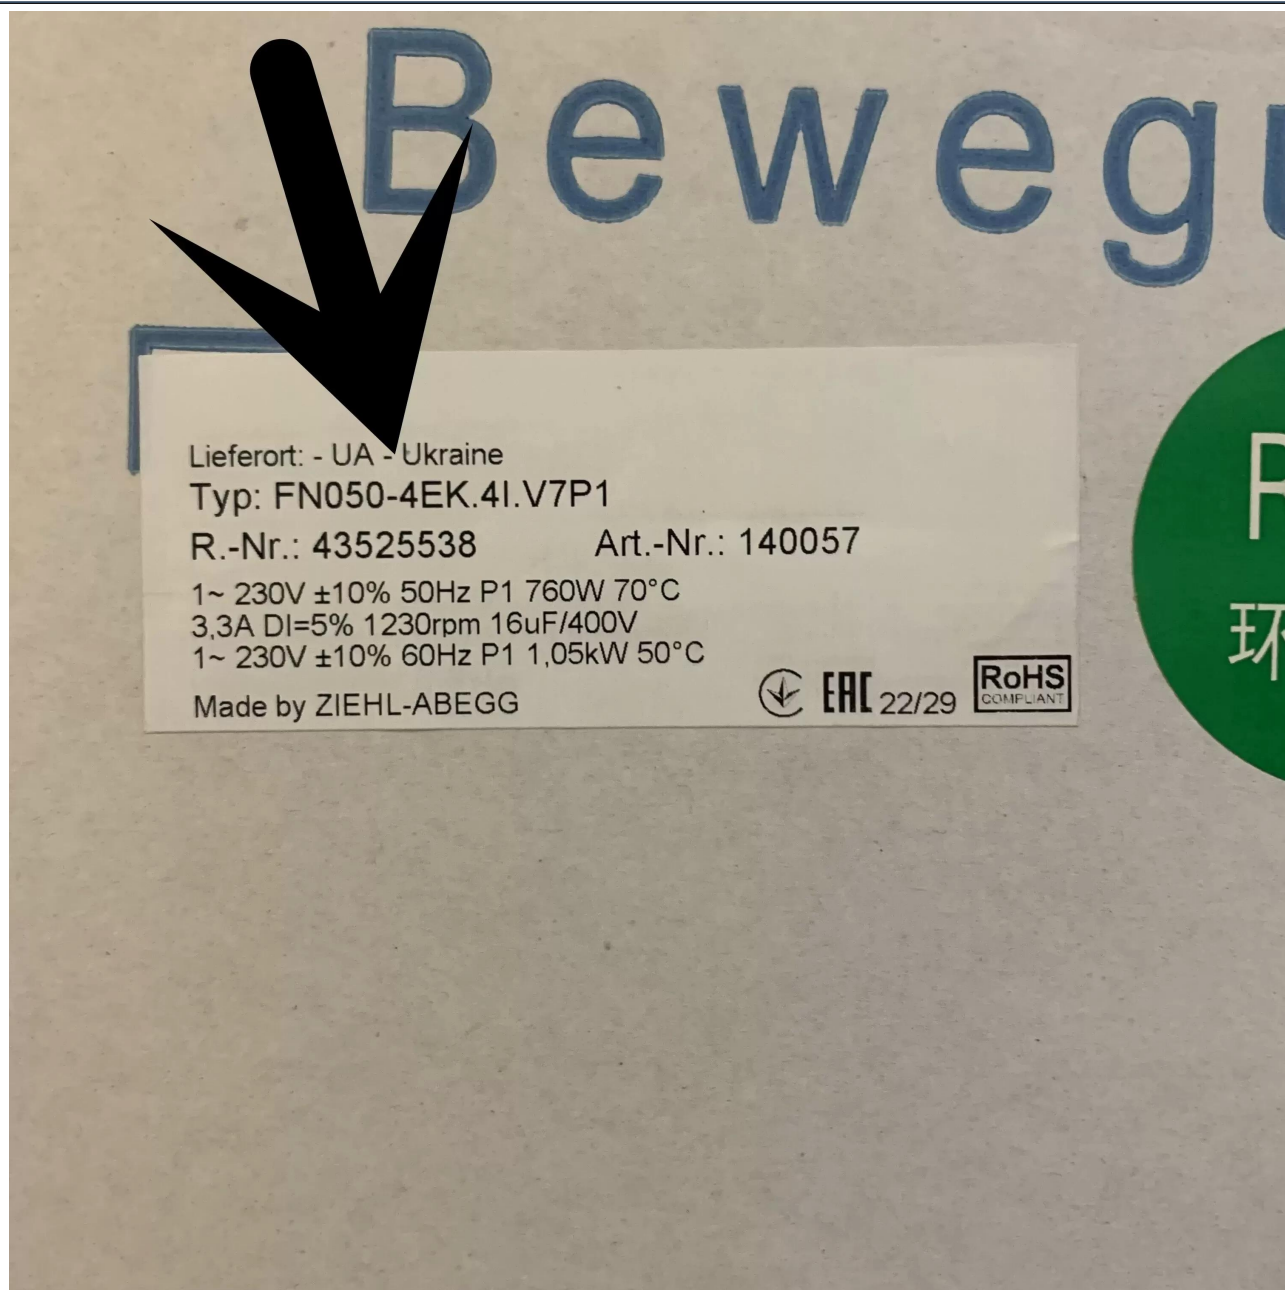

Rated Speed nN: 1250 RPM
