Product Description

The Jiulong G12038HA3SL is a standard 120x120x38mm AC axial fan designed for general-purpose cooling and ventilation. It operates on 380 VAC at 50/60 Hz, drawing 0.07A of current and consuming 21W of power. This fan provides reliable airflow for heat dissipation in a range of electronic enclosures and industrial equipment, particularly those requiring a high-voltage AC power source. It usually connects via 2-wire leads and is built for consistent performance in various applications.

G12038HA3SL Fan Parameters

Model: G12038HA3SL

Manufacturer: Jiulong

Type: AC Axial Fan

Dimensions: 120mm x 120mm x 38mm

Rated Voltage: 380 VAC

Frequency: 50 Hz / 60 Hz

Rated Current: 0.07A

Power Consumption: 21 W

Termination: 2-Wire Leads

Application: Industrial control cabinets, power supplies, welding equipment, general electronic cooling, ventilation systems.

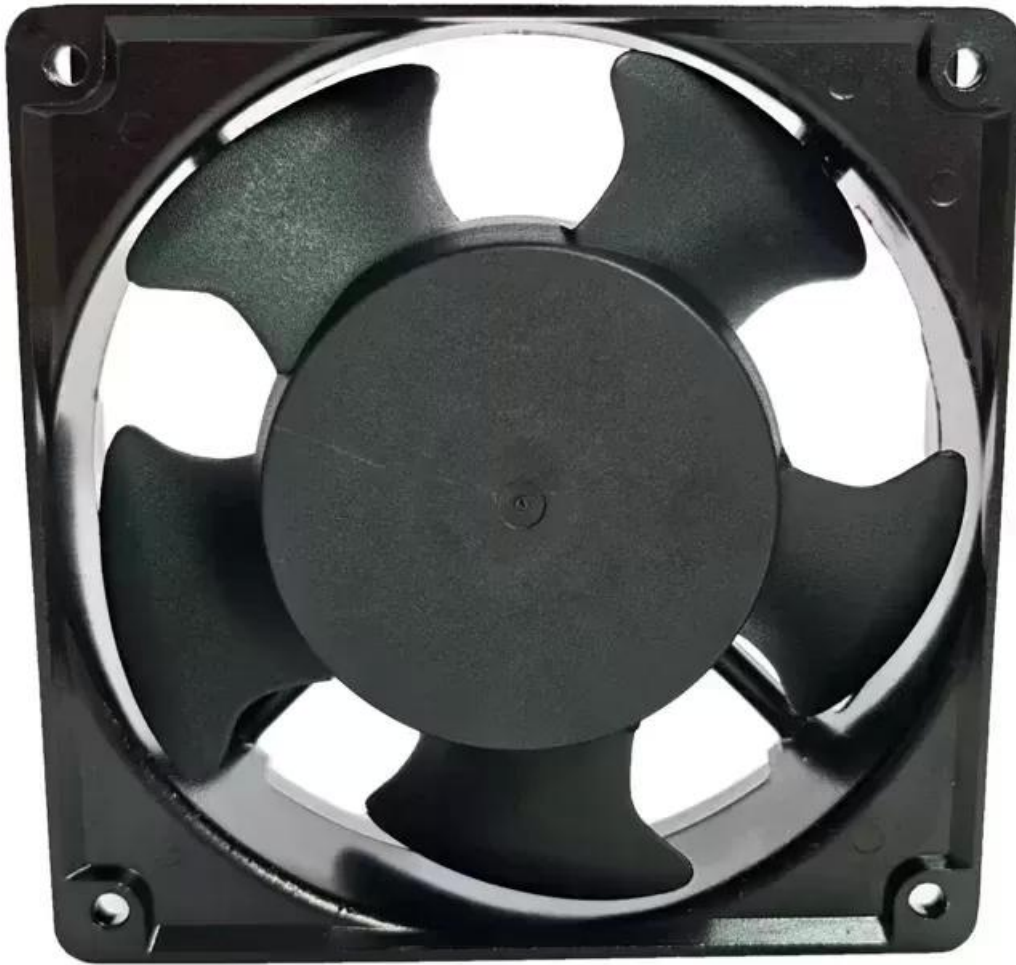

Additional Information

sort by color: G12038HA3SL Oil-containing bearing 380V, G12038HA3SL ball bearing 380V
