## Product Description

---

Ningbo Jiulong G9025HA2SL axial flow fan 220V cabinet cooling cooling exhaust fan silent 9225

Size: 92mm x 92mm x 25mm Airflow: 23-37CFM

Weight: 268g

Noise: 23-40dB(A)

Impeller Material: PBT UL94-VO Reinforced Plastic Frame: Aluminum Alloy

Terminals: 0.5mm

Lead Wire: AWG#22 UL 1569 (Optional) Motor: Shaded Pole induction Motor

Temperature rangeOperating Temperature: -10°C~+65°C

Ningbo Jiulong Telecom Motor Co., Ltd., founded in 1990, is a modern professional manufacturing enterprise engaged in the development and production of a full range of AC axial flow fans, DC fans, cooling fans, cross flow fans, vortex fans, centrifugal fans and fan accessories. It has accumulated rich experience production experience.

In 2004, Ningbo Longtai Telecom Motor Co., Ltd. was founded. The company covers an area of 25,000 square meters and has a construction area of 20,000 square meters for production, R&D and office buildings. It is located in the beautiful coastal city of Xiangshan, which belongs to Ningbo City and is close to Shanghai City. It has very convenient sea and land transportation. Our products are widely used in: IT field, sports equipment, ventilation equipment, welding equipment, power supply systems, medical electronic instruments, mechanical equipment and other industries. The company has passed and has been operating in accordance with the ISO9001-2000 international quality management system, and has now introduced an environmental management system. The products have passed safety certifications in many countries and regions, such as: UL, CUL, TUV, cE, cCC, etc.

Strong technical force and complete testing equipment enable us to provide first-class quality and professional technical support. Our company has always adhered to the concept of "survive by quality, produce by price, develop by product, and benefit by management", which has

enabled us to win a good reputation and popularity. After 21 years of hard work, "Jiulong" brand products have been widely sold to many well-known domestic enterprises and major wind turbine markets, and exported to major markets such as Europe, America, Oceania, Southeast Asia and the Middle East.

We are committed to providing the best cooling solutions and warmly welcome people from all walks of life at home and abroad to visit our company to discuss motor development, production, cooperation and other businesses.
