Product Description

The Fasco GPM 5.8H 70500314 is a powerful 230VAC Furnace Blower Motor designed for demanding HVAC applications, capable of operating at both 50Hz and 60Hz frequencies. This motor consumes 300W of power and achieves a high speed of 7600RPM, delivering a significant airflow of 230m³/h. It features Class B insulation for electrical safety and reliability, and holds international certifications including CCC, CE, and UL. This motor is suitable for integration into various heating and ventilation systems where robust and efficient air movement is required.

GPM 5.8H 70500314 Fan Parameters

Model: GPM 5.8H 70500314

Manufacturer: Fasco

Type: Furnace Blower Motor

Nominal Voltage: 230 V AC

Frequency: 50/60 Hz

Power Consumption: 300 W

Rated Current: 1.30 A

Speed: 7600 RPM

Airflow: 230 m³/h

Insulation Class: B

Approval: CCC, CE, UL

Application: Heating, ventilation, and air conditioning (HVAC) systems.
