Product Description

Suzhou Great Wall 200FZY2-D/220V capacitor cooling axial flow fan 150FZY4-D/380V30W aluminum shell

Steps to connect capacitor

1. Connect the blue and yellow lines to the capacitor first.
2. Connect the red and blue connectors to the power supply
3. Wrap the yellow line with tape and leave it there without moving.

Note: It does not support 7-day no-reason returns if it is not a quality problem. If the buyer buys the wrong model, he/she will be responsible for the return shipping costs. Thank you for understanding

Name: Axial flow fan

Model: 150FZY

Overall dimensions: 15.5CM

Hole to hole: 12cm

Diagonal hole distance: 17CM

Voltage: 220V 380V

Wattage: 30W

Weight: 1.1KG

1 piece: 20 pieces

Model: 200FZY2-D/220V with capacitor

200FZY4-D/380V non-electric capacitor

200FZY7-D/380V with capacitor

Overall dimensions: 220*74mm thick

Horizontal hole distance: 165mm

Diagonal hole distance: 235

Wattage: 65W

1 piece weight: 2.5KG packed

1 piece: 10 pieces

Additional Information

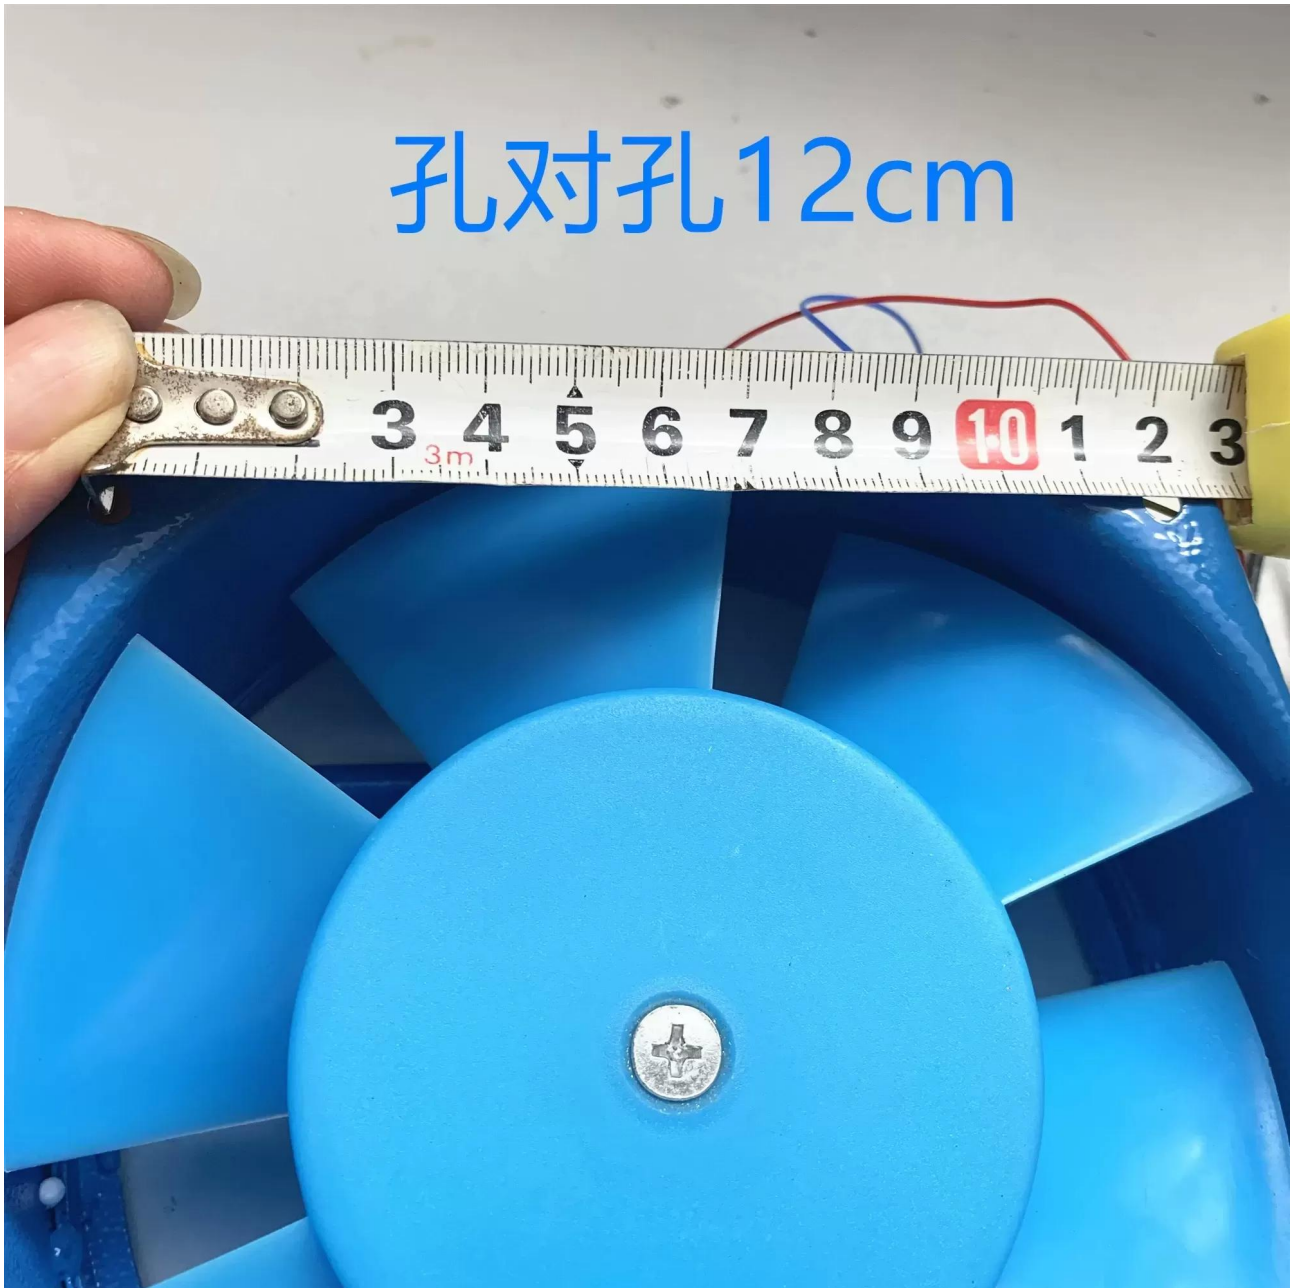

sort by color: 150FZY2-D/220V with capacitor, 150FZY4-D/380V without capacitor, 150FZY7-D/380V with capacitor, 20060/220V, Great Wall 200FZY2-D/220V with capacitor 4 lines, Great Wall 200FZY4-D/380V three-phase without capacitor, Great Wall 200FZY7-D/380V two-phase with capacitor, Great Wall 200FZY2-D/220V with capacitor 3 lines
