## Product Description

---

H3400 original Beijing Ximanton XIMADEN Kingmantan 400A industrial AC solid state relay thyristor

From modules to voltage regulators to resistors and capacitors, we all require extremely high quality, and of course we pay extremely high costs. If you blindly pursue low prices, quality is not guaranteed. When we provide a product to the market, not only does the product itself use high-quality raw materials, but during the production process, each product must go through demanding production processes and strict quality inspections. Not only that, we adopt low-pollution or even pollution-free green production methods without causing any harm to the environment.

In today's fiercely competitive society, low prices must be highly competitive. But blindly low prices often make customers pay a high price. Blindly pursuing low prices sacrifices product quality and user interests.

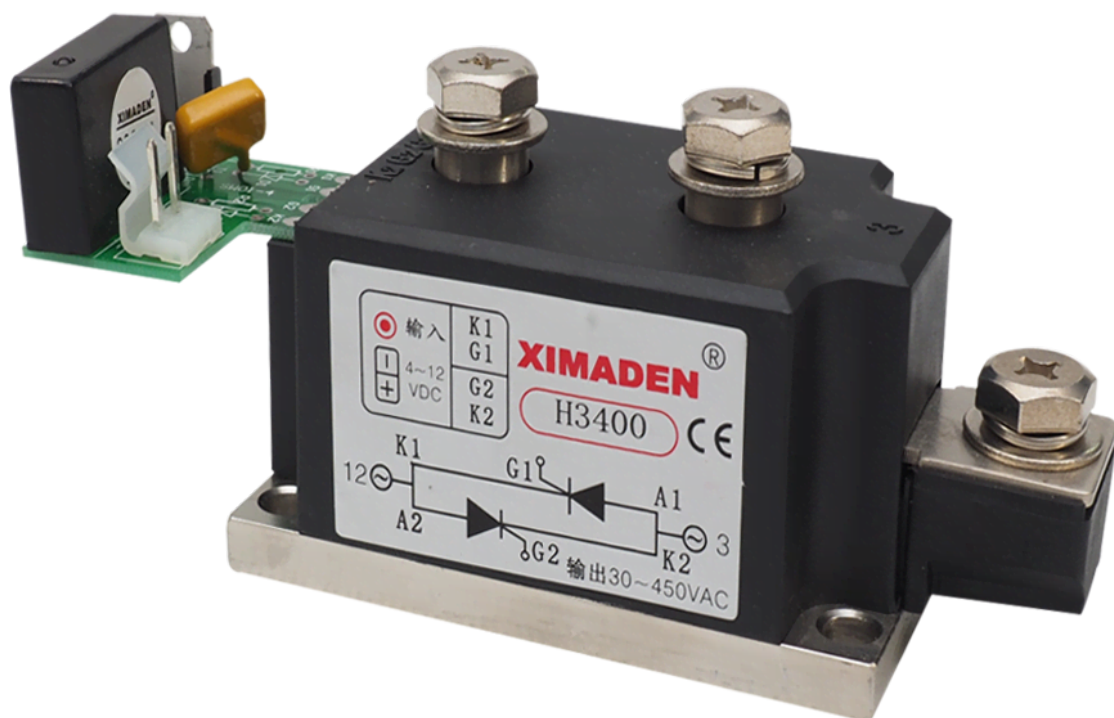

We stand firm in our principles!

We only provide high-quality products and refuse to cut corners or shoddy products.

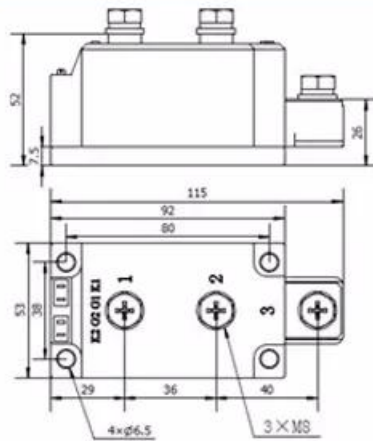

## Additional Information

**sort by color:** Z green trigger plate, P green trigger plate, H3400P, H3400Z, H3400 thyristor type, H3450 silicon controlled type

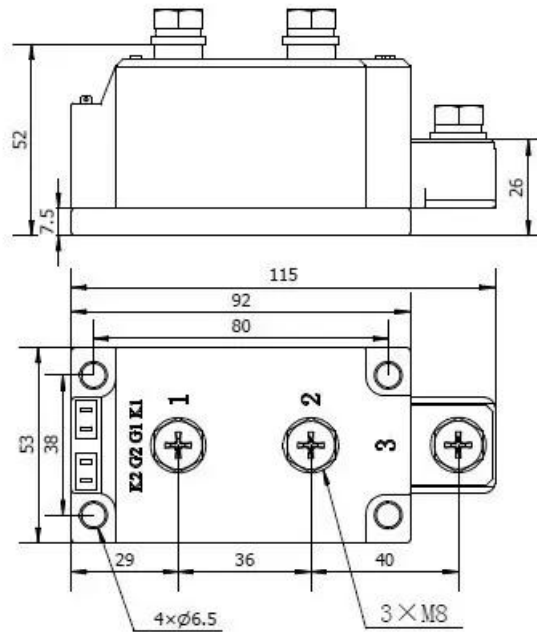

## Product Images

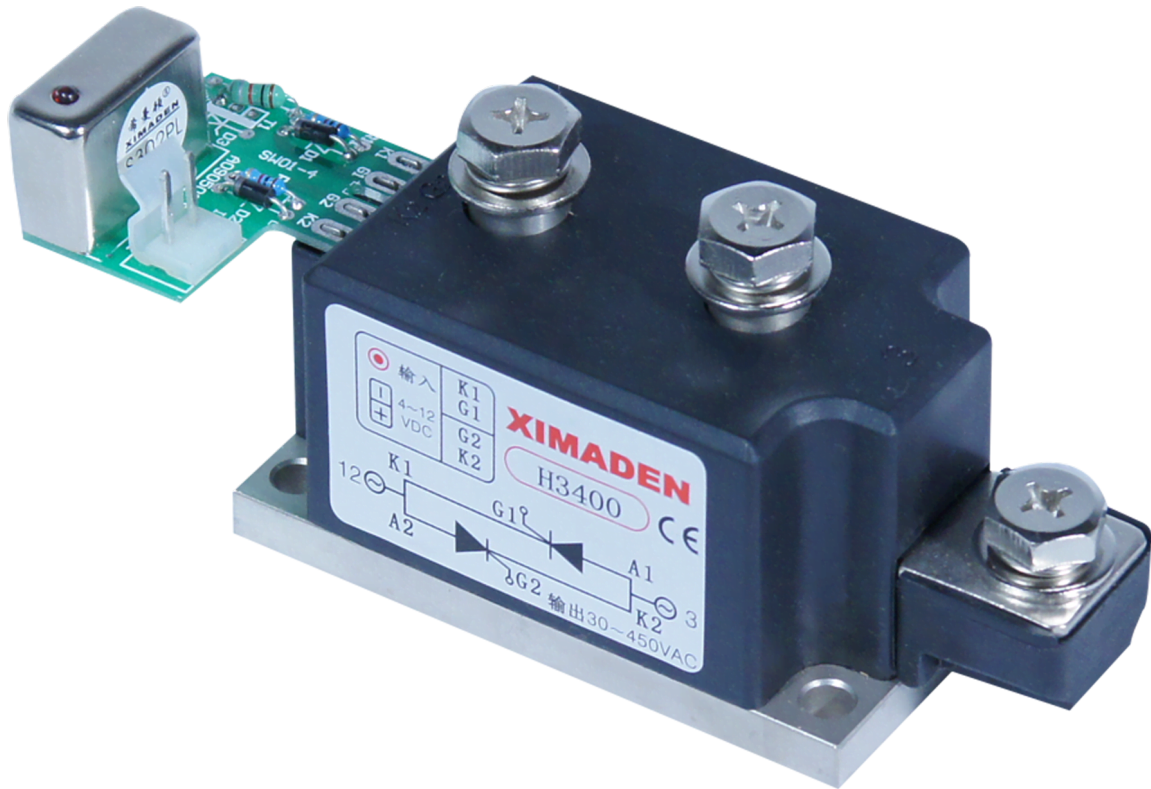

# 增强型固态继电器

产品型号:	H3400Z
控制电压:	4-24V
控制电流:	>8mA
输出电压范围:	40-430V
标称电流:	400A
通态峰值电压:	<1.5V
断态漏电流:	<3mA
触发方式:	过零触发
安装方式:	螺丝安装
工作指示:	LED
环境温度:	-30℃~50℃
