Product Description

The KAKU KA1725-4500D24B is a large-format 172mm DC axial cooling fan, engineered for high-performance thermal management in industrial and commercial applications. With its all-metal construction, it offers superior durability and robustness. Operating on DC 24V, this fan delivers substantial airflow, making it ideal for cooling inverters, power supplies, control cabinets, and other equipment that generates considerable heat. It's built for continuous duty and features ball bearings for enhanced durability and a longer operational lifespan.

Model: KA1725-4500D24B

Manufacturer: KAKU

Type: Axial Fan

Material: All-metal construction

Fan Dimensions: 172mm x 172mm x 51mm

Rated Voltage: DC 24V

Rated Current: 1.4A

Rated Power: 36W

Maximum Rotational Speed: 4500 RPM

Maximum Airflow: 250 CFM

Bearing Type: Ball Bearing

Connector: 2-Wire Leads
