Product Description

The KAKU KA2206HA3 is a powerful 222x222x60mm AC axial fan designed for heavy-duty cooling in industrial electrical cabinets, power supplies, and other systems requiring robust air movement. Operating on a 380V to 400V AC (50/60Hz) three-phase power supply, this fan precisely draws 0.12A (50Hz) or 0.10A (60Hz) of current. Based on a 380V supply, this translates to a power consumption of approximately 45.6W (50Hz) or 38W (60Hz). Utilizing ball bearings, this model is built for a long operational lifetime and provides reliable performance in demanding industrial environments.

KA2206HA3 Fan Parameters

Model Number: KA2206HA3

Manufacturer: KAKU

Type: AC Axial Fan

Dimensions: 222mm x 222mm x 60mm

Rated Voltage: 380-400 VAC

Frequency: 50 Hz / 60 Hz

Rated Current: 0.12A (50Hz) / 0.10A (60Hz)

Rated Power: 45.6 W (50Hz) / 38 W (60Hz)

Bearing Type: Ball Bearing

Frame Material: Die-cast aluminum

Blade Material: Plastic

Wiring: 3-Phase leads

Weight: 1.45 kg

Operating Temperature: -10°C to +70°C

Life Expectancy: 50,000 hours

Application: Industrial electrical cabinets, power supplies, welding machines, general industrial cooling.
