## Product Description

---

The Delta PMT-48V200W2BR is a panel-mount power supply from Delta, offering an output of 48V and a maximum current of 4.4A. It features a selectable AC input voltage range of 90-132 Vac and 180-264 Vac, a low-profile design with dimensions of 159 x 97 x 30 mm, and operates within a wide temperature range of -40°C to 70°C. This model meets various safety and harmonic current standards, making it suitable for applications requiring reliable power.

PMT-48V200W2BR Parameters

Manufacturer: Delta

Model: PMT-48V200W2BR

Type: Panel Mount Power Supply

Output Voltage: 48V

Output Current: 0-4.4A

Output Power: 211.2W

Input Voltage Range: 90-132 Vac, 180-264 Vac (Selectable by Switch)

Dimensions: 159 x 97 x 30 mm

Unit Weight: 0.42 kg (0.93 lb)

Operating Temperature: -40°C to 70°C

Empty Load Power Consumption: 700,000 hours (based on Telcordia SR-332 standard)

Pollution Degree: 3

Safety Certifications: IEC/EN/BS EN 60335-1, IEC/EN/BS EN 61558-1, IEC/EN/BS EN 61558-2-16

Applications

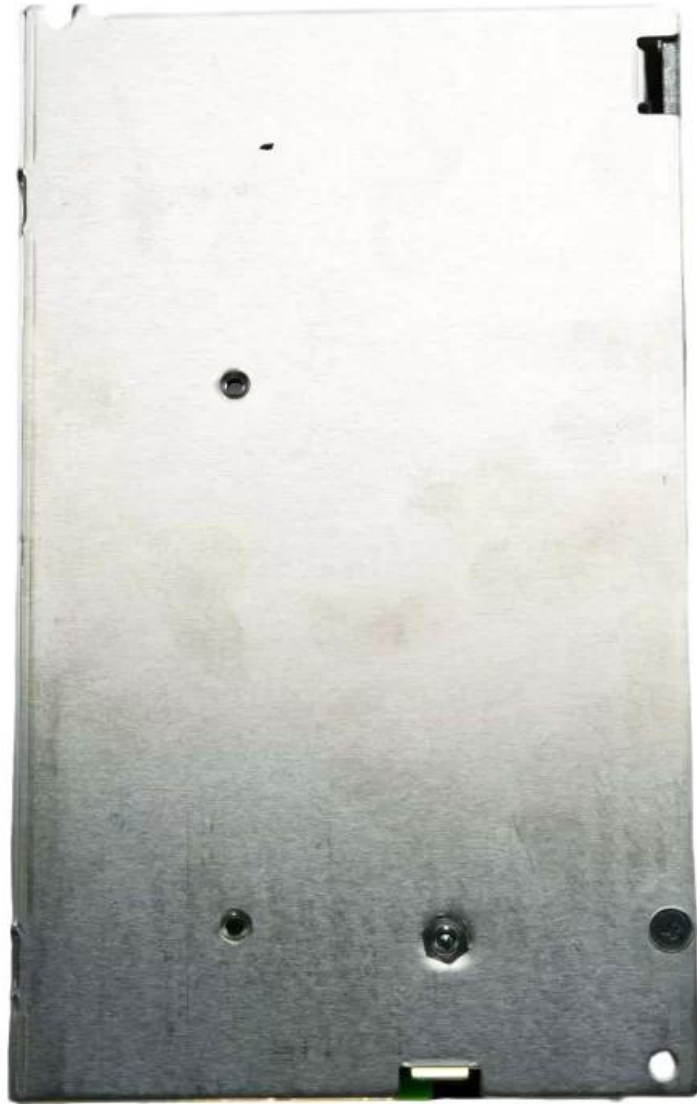

This power supply is designed for applications requiring stable and reliable power, particularly where space is a consideration due to its low-profile design. It is suitable for use in various

industrial and home appliance applications that require a 48V output.
