Product Description

The Sunon SP100A-1123XBT.GN is a robust and high-performance 115V AC axial fan, measuring 120x120x38mm. Designed for reliable cooling in various applications, it features ball bearings for excellent durability and a long operational lifespan. This fan delivers a powerful 117 CFM of airflow at 3150 RPM (at 60Hz) and a static pressure of 0.390 In H2O, making it highly effective for dissipating heat in industrial equipment, control cabinets, power supplies, and other systems requiring robust thermal management. With a noise level of 50 dBA, it offers a strong cooling solution. Its standard 2-terminal termination provides a straightforward connection to AC power. This fan is a dependable choice for maintaining optimal operating temperatures in challenging environments.

SP100A 1123XBT.GN SUNON 115V AC axial fan

Model: SP100A-1123XBT.GN Manufacturer: Sunon Fans

Type: AC Axial Fan

Dimensions: 120mm x 120mm x 38mm

Nominal Voltage: 115V AC

Frequency: 50/60 Hz Current: 0.24A / 0.26A

Power Consumption: 20W / 22W

Speed: 2850 RPM / 3150 RPM (at 50Hz/60Hz respectively) Airflow: 97 CFM / 117 CFM (at 50Hz/60Hz respectively)

Static Pressure: 0.390 In H2O (97.1 Pa)

Noise Level: 50 dBA

Bearing Type: Ball Bearing

Termination: 2 Terminals
Frame Material: Aluminum

Blade Material: Polybutylene Terephthalate (PBT)

Features: Low Power Consumption, High-Temperature Endurance, Impedance Protected, RoHS

Compliant, Aluminum Alloy Frame.
