Product Description

Model: YWF4D-250B

Type: External rotor axial fan

Rated Voltage: 380V (3-phase AC)

Power: 40W

Airflow: 1010m³/h

Speed: 1650r/min

Noise Level: Low-noise design (industrial-grade)

Dimension: 250mm diameter (with standard iron mesh cover)

Compatibility: Replaceable with EBMPAPST, Ziehl-Abegg equivalents

Configuration: Optional junction box

Applications: Air compressor cooling (e.g., Bolaite screw compressors), condenser ventilation, industrial equipment heat dissipation
