Product Description

Hangzhou Weiguang YWF4D-600S YWF4D-630S external rotor axial flow fan cold storage motor 380V mesh cover

YWF4D-600S [Wiring type 380v]

YWF4D-600S [junction box 380v]

YWF4D-630S [junction box 380v]

YWF6D-710S [low speed 380v]

YWF4D-630S□Wiring□

YWF6D-800S

YWF4D-600B

Summary of YWF Seiries axial fans□

YwF series axial fans are external rotor fan motors. Those motors have characteristics of compact structure, convenient installation, energy conservation and high efficiency.

YwF series axial fan motors have two types, single phase asynchronous capacitor run fan motor and three phase asynchronous fan motor. They are widely used in condenser, evaporator and other refrigeration

equipments and ventilating cycle areas.

The insulation class of the YWF series axial fans is B or F.

Voltage: The voltage of the single phase fan is 220V/50Hz and the voltage of the three phase fan is 380V/50Hz. We can also supply other fan with different voltages and frequencies according to clients' requirement. The standard length of the electrical wire on the fan is 1.5m and we can also supply the fans with connection box for clients' choices.

The applicable ambient temperature of the fans used in condenser is from -30°C to 60°C.

The average service life of fans is over 30000 hours.

All fans got CE approval in Europe and CCC safety certificate in China. Before operating the fan, make sure the earth wire of the fan connected with the external grounding device.

Fan characteristic measured in full bell mouth without guard grill.
